

CCH & EP ESG ROADMAP

Journey & Gains

EP ENERGY PARTNERS SUSTAINABILITY

CASE STUDY

6 CCS sites (includes South Africa and Namibia)

3 Sequence Logistics sites

1 Idube Cold Storage site

1 CCH Greenbushes site

OUR ESG STRATEGY PROGRESSION

Readiness Gauge Implementation

To assess gaps, highlight quick wins, prioritise initiatives and guide a structured ESG plan.

Three-Stage Approach

Covering scoping, research and confirmation to ensure data-driven decision-making.

KEY OBJECTIVES & IMPACT AREAS

Carbon Neutrality & Energy Efficiency	Water & Waste Management	Food Security & Community Engagement	Diversity & Employee Well-being	Ethical Business Conduct & Compliance
<ul style="list-style-type: none">Targeting an 18% energy reduction over 24 months.2.6 GWhR4.9m savings	<ul style="list-style-type: none">Reducing fresh water demand, optimising tariff structures.R1.2m savings potential identified	<ul style="list-style-type: none">Redistributing edible food, enhancing cold chain infrastructure, and collaborating with rural farmers.	<ul style="list-style-type: none">Advancing leadership inclusivity, workplace safety, and anti-discrimination policies.	<ul style="list-style-type: none">Strengthening governance, regulatory alignment, and enterprise development.

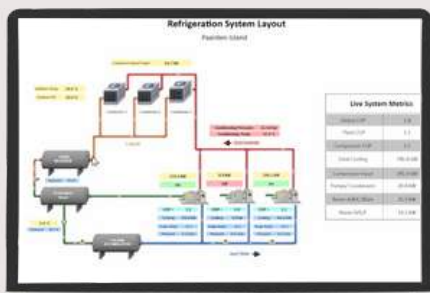

Outcome: A structured ESG roadmap that integrates sustainability into CCH's operations, drives cost savings and strengthens long-term resilience.

ESG

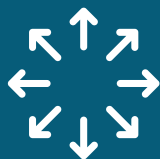

EP VALUE CONTRIBUTION TO CCH'S ESG MATURITY

Transitioning CCH from **IFC-based risk focus** to **GRI-aligned reporting**.

Enhancing **data-driven ESG metrics**: baseline tracking, benchmarking and carbon neutrality roadmaps.

Expanding **GHG accounting** for **Scopes 1, 2 & 3**, social governance reporting and strategic ESG dashboards.

Aligning risk assessments with **TCFD, GRI, IFRS S1 & S2**, covering policy, climate risks, and opportunities.
